Contextualization

Google services requires cookies to work properly. This is not different to its Programmable Search Engine.[1] É exigido por lei que os visitantes do site devem ser avisados sobre a utilização de cookies. [2] Além disso, avisar os usuários sobre o uso de cookies é uma exigência para se qualificar para o Google AdSense.[3]

Problem

We implement the Programmable Search Engine in our website, but there is no warnings for the users that informs them about the use of cookies by this service. This may bring us problems with authorities, and prevent our acceptance to Google AdSense program.

Solution}

Add a cookie message box to the WebSite.
